REDACTED – FOR PUBLIC INSPECTION

July 1, 2015

VIA HAND DELIVERY AND ECFS

Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Re: *WC Docket No. 14-58*
PTI Pacifica Inc. dba IT&E Form 481 Submission, SAC 669004
Request for Confidential Treatment

Dear Ms. Dortch:

On behalf of PTI Pacifica Inc. dba IT&E (“IT&E”), pursuant to Sections 54.313(i) and 54.422(c) of the Commission’s Rules,¹ please find (1) IT&E’s Form 481 submission for SAC 669004 (Guam), which was timely filed with USAC, and (2) a request that this material be withheld from public inspection pursuant to sections 0.457 and 0.459 of the Commission’s Rules.²

The submission contains commercial and technical data that IT&E does not in the normal course of its business reveal to the public or its competitors. IT&E thus requests that the submission be withheld from public inspection under Freedom of Information Act (“FOIA”) Exemption 4, 5 U.S.C. §552(b)(4), and Section 0.457(d)(2) of the Commission’s Rules.

¹ 47 C.F.R. §§ 54.313, 54.422.

² 47 C.F.R. §§ 0.457, 0.459.

REDACTED – FOR PUBLIC INSPECTION

In support of this request, IT&E provides the following information, as required by Sections 0.457(d)(2) and 0.459(b) of the Commission's Rules.

1. Information for Which Confidentiality is Requested. IT&E is requesting confidential treatment for the non-redacted portions of the Form 481 submission, which contain commercially-sensitive, proprietary, and confidential operational, cost and technical information about IT&E's past and anticipated investments in the very competitive wireless market in Guam.
2. Circumstances Giving Rise to Submission of Materials. IT&E is submitting Form 481 and attachments to comply with newly adopted FCC rules.
3. Degree to Which Information is Commercial or Financial, or Contains a Trade Secret or is Privileged. The attached document contains commercially-sensitive, proprietary, and confidential operational, financial and technical information about IT&E's wireless infrastructure and plans in Guam. IT&E closely guards this information against disclosure to competitors and the public. The information for which confidential treatment is sought concerns IT&E's private business and operations and "would customarily be guarded from competitors." *See* 47 C.F.R. §§ 0.459(a)(4), 0.457(d)(2). Such proprietary and confidential information may be withheld from public disclosure under FOIA Exemption 4.
4. Degree to Which Information Concerns a Service That is Subject to Competition. The submission contains commercially-sensitive, proprietary, and confidential operational and financial information about IT&E's past investments and future infrastructure plans in the Guam CMRS market, which is highly competitive.
5. Substantial Competitive Harm That Would Result from Disclosure of Information. Public disclosure of the commercially-sensitive, proprietary, and confidential operational and financial information set forth in the Plan would cause competitive harm to IT&E. The wireless industry in Guam is highly competitive, and thus others always are interested in gaining a competitive advantage by learning information about IT&E's infrastructure plans and construction schedules. The D.C. Circuit has found that parties do not have to "show actual competitive harm" to justify confidential treatment. Rather, "[a]ctual competition and the likelihood of substantial competitive injury" is sufficient to bring commercial information within the realm of confidentiality." *Public Citizen Health Research Group*, 704 F.2d at 1291, *quoting Gulf & Western Industries v. U.S.*, 615 F.2d 527, 530 (D.C. Cir. 1979).
6. Measures Taken to Prevent Unauthorized Disclosure. IT&E treats the operational and financial information set forth in the submission as confidential and proprietary and does not publicly disclose this information.
7. Previous Disclosure. There has been no public disclosure of the information that IT&E has redacted in its public filing.

REDACTED – FOR PUBLIC INSPECTION

8. Requested Duration of Nondisclosure. The attached Request should not be released for public inspection until such information no longer is deemed confidential and proprietary by IT&E and no longer subject to IT&E's internal procedures for maintaining its confidentiality. The attached Request contains commercially-sensitive, proprietary and confidential operational and technical information, the release of which would adversely affect IT&E's competitive position.

For the foregoing reasons, IT&E respectfully requests that the Commission withhold from public inspection the attached document. Consistent with 47 C.F.R. § 0.459(d)(1), IT&E requests notification if access to the attachment is requested pursuant to the FOIA or otherwise, so that IT&E may have an opportunity to oppose the grant of any such request. As noted previously, a redacted version of the document is being filed with ECFS.

If you have any questions, please contact the undersigned.

Respectfully submitted,

/s/ Timothy J. Cooney
Timothy J. Cooney

IT&E (Guam)

FIVE YEAR SERVICE QUALITY IMPROVEMENT PLAN

OVERVIEW

PTI Pacifica, Inc., dba IT&E, [IT&E, as an Eligible Telecommunications Carrier (ETC) currently provides Universal Service supported services to 4 exchanges, for which there is 1 wire center.

Consistent with Commission requirements, this Service Quality Improvement Plan addresses only IT&E's non-regulated eligible telecommunications carrier operations.¹ A detailed description of the Company's plans for the provision of the supported services in the five-year period starting with January 2014 is provided herein.

Per USAC, during the calendar year 2013, IT&E has received a total of \$2,114,253 in USF support funds. The breakdown of the funding for the year was:

- \$0 High Cost Loop Support,
- \$15,267 Local Switching Support
- \$0 Connect America Fund-Intercarrier Compensation Support
- \$(17,544) Interstate Common Line Support
- \$2,116,5308 Frozen High Cost Support

All funds were used in 2013 to both: 1) maintain, upgrade and improve the Company's network and, 2) to cover its operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband throughout its service area. IT&E spent a total of _____ to maintain and improve the quality of wireless voice and data service in Guam during calendar year 2013.

IMPROVEMENT PLANS BY YEAR (2013-2018 inclusive)

Summary descriptions in accordance Part 54.202(a)(1)(ii) and Part 54.313(a)(1) by year and by wire center are presented in the paragraphs below and present network improvements planned for the next five years. Detailed expenditures on a wire center basis are contained in the attached Excel worksheets. Area and population estimates impacted by the improvements are identified in the worksheets as well as on the wire center maps. Costs are broken out by voice and broadband service.

- Network improvement expenditures identify the cost to provide those services supported by the universal service funding mechanisms. When a project involves expenditures for both regulated and non-regulated services, the non-regulated investment costs have been removed. The Company estimates non-regulated

¹Per 47 C.F.R. § 54.314, federal USF support, "will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended." If investments or expenses are for service areas larger than the supported service areas, then allocations of the expenditures are required.

costs using the appropriate allocation rules. Details of those costs are retained by the Company and available for inspection.

- Costs for individual projects involving multiple wire centers are broken out by wire center on a ratio of “population served” basis if a specific dollar amount is unavailable.
- Costs are reported only for those service areas in which the Company is authorized to receive USF funding. Costs incurred outside the authorized area, if any, are excluded.

Due to the current uncertainty of the amounts of support funds the company may receive in future years, IT&E advises the Commission that the deployment of specific network improvement projects may be modified, and the meeting of projected service goals muted, to accommodate the actual amount of support that will be received.

BASELINE MAPS

IT&E presents the attached Baseline Maps (GIS or similar) highlighting current availability of broadband service, by wire center, which delivers at least 4Mbps actual downstream and 1Mbps actual upstream within its territory which is sufficient to provide VoIP. This is the baseline territory for which network performance testing has occurred for this report.

IT&E is a competitive local exchange carrier providing telecommunications to the Territory of Guam. Established in 1981, it serves a current population of 159,358 over a geographic area of 181.3 sq miles. The service territory is generally hilly with a few streams and a large number of road crossings. The population is spread about in villages located throughout the island. The community is incorporated as a territory. There are many small family businesses; health, medical, and police facilities are located throughout the community. There is a government fire department and both a public school system and numerous private schools. There are many other anchor institutions located within the serving area. A complete listing can be found on the NTIA ARRA BTOP website.

The demographics of the community reflect its multicultural local and immigrant ethnic roots. The indigenous ethnic population is Chamorro with a sizeable community of Carolinians. There are small, but reasonably sized, ethnic Korean and Chinese communities along with a sizeable Filipino population, all of which use their native languages. IT&E’s staff provides customer service in Tagalog, Chinese and Korean languages as needed. Religious affiliations include Roman Catholics, various protestant Christian sects, Muslims, and Buddhists.

There are 50,567 households and a total population of 159,158 within the service territory. The median household income level is approximately \$20,000. IT&E serves no Lifeline subscribers in Guam.
